

Group Assignment 1

August 15, 2026

Assignment

Group 1 Assignment: Revenue

Each member of the Revenue Group on **Monday, 17th August** should undertake the following tasks:

1. **Import the fiscal data into Stata.**
2. **Explore the revenue variable in the fiscal dataset**

Drawing lessons from the first session, and other materials of your choosing (be creative), thoroughly explore the revenue variable using descriptive statistics (summary, density, box plots, trends etc). Make sure that your analysis helps you thoroughly describe characteristics/features and trends of revenue in the Ghanaian Economy.

3. **Highlight findings briefly in a PowerPoint**

- First provide some background on processes underlying Ghana's Revenue Collection- Maximum 3 slides
- Second, describe revenue patterns using results from your data exploration (be innovative) - Maximum 5 slides

The Group as a whole would then meet on **Tuesday, 18th August** to undertake the following tasks:

1. **Create a Powerpoint Point Presentation - Maximum 12 slides**

PowerPoint should: 1) Provide some background on Ghana's Revenue collection. 2) Describe revenue patterns using results from your data exploration (Group should decide what is relevant and should be innovative). Where needed please provide historical context.

Group 2 Assignment: Expenditure

Each member of the Expenditure Group on **Monday, 17th August** should undertake the following tasks:

1. **Import the fiscal data into Stata.**
2. **Explore the Expenditure variable in the fiscal dataset**

Drawing lessons from the first session, and other materials of your choosing (be creative), thoroughly explore the Expenditure variable using descriptive statistics (summary, density, box plots, trends etc). Make sure that your analysis helps you thoroughly describe characteristics/features and trends of expenditure in the Ghanaian Economy.

3. **Highlight findings briefly in a PowerPoint**

- First provide some background on Ghana's expenditure architecture - Maximum 3 slides
- Second, describe expenditure patterns using results from your data exploration (be innovative) - Maximum 5 slides

The Group as a whole would then meet on **Tuesday, 18th August** to undertake the following tasks:

1. **Create a Powerpoint Point Presentation - Maximum 12 slides**

PowerPoint should: 1) Provide some background of Ghana's expenditure architecture. 2) Describe expenditure patterns using results from your data exploration (Group should decide what is relevant and should be innovative). Where needed please provide historical context.

Group 3 Assignment: Overall Balance

Each member of the Overall Balance Group on **Monday, 17th August** should undertake the following tasks:

1. **Import the fiscal data into Stata.**
2. **Explore the Overall Balance variable in the fiscal dataset**

Drawing lessons from the first session, and other materials of your choosing (be creative), thoroughly explore the Overall Balance variable using descriptive statistics (summary, density, box plots, trends etc). Make sure that your analysis helps you thoroughly describe characteristics/features and trends of expenditure in the Ghanaian Economy.

3. **Highlight findings briefly in a PowerPoint**

- First provide some background on rules governing Government's Overall Balance - Maximum 3 slides
- Second, describe overall balance patterns using results from your data exploration (be innovative) - Maximum 5 slides

The Group as a whole would then meet on **Tuesday, 18th August** to undertake the following tasks:

1. **Create a Powerpoint Point Presentation - Maximum 12 slides**

PowerPoint should: 1) Explain the rules governing Government's Overall Balance. 2) Describe patterns in the overall balance using results from your data exploration (Group should decide what is relevant and should be innovative). Where needed please provide historical context.
